Hello everyone,

March is National Developmental Disabilities Awareness Month and we have three ways to celebrate and learn! See details below. **And don't forget to get your tickets to our Gala!** We have so many great auction items!

1. Have you thought about when and how your adult child with a disability should move out of the family home? To stimulate a discussion on living in the community, we are having a showing of "Mimi & Dona", a documentary by Sophie Sartain.

2. *Self Advocate Groups Speaking for Ourselves.*

3. *Can I hire people I know and how does that work? Participant Directed Services and Supports Brokers. What does that mean and how can it help?*

Community Education Sessions - All Welcomed! Film: Mimi & Dona

"What happens when love runs out of time? For a 92-year-old mother, Mimi, who has cared 64 years for Dona, a daughter who has an intellectual disability, it means facing the inevitable-the likelihood that she will not outlive her daughter and the need to find her daughter a new home.

This poignant, heartbreaking and, at times, humorous documentary traces this process through the story of a quirky and deeply connected mother-daughter duo. The film spotlights the challenges of aging caregivers of people with intellectual and developmental disabilities and details the ripple effects of Dona's disability on three generations of an American family."
